NICHOLAS MICKLES, New York.

OFFICERS.

A. G. CURTIN, President.

N. MICKLES, Vice President.

GEORGE ELLIS (Cashier National Bank Commonwealth,) Treasurer.

HON. A. K. McCLURE, Philadelphia, Solicitor.

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of commuuicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

DREXEL & CO.,

34 South Third Street,

PHILADELPHIA.

Shares can be obtained in Bedford by application to Reed & Schell, Bankers, who are authorized to receive subscriptions, and can give all necessary information on the subject. sept25y1

THE DISCONTENTED COUPLE.

An old discontented couple, who had hard work to procure the necessaries of life, were constantly complaining of the faults and failings of others, instead of seeking by Divine help to rectify their own.

"All this trouble and sorrow in the world is through Adam and Eve," the old man would exclaim. "If I had been Adam I never would have allowed a woman to lead me in such a scrape."

A wealthy and pious lady lived near, who had frequently relieved the old man and his wife. One day, in passing, she heard them grumbling as usual about Adam and Eve. She felt anxious to convince them of the importance of being contented with the station in which Providence had placed them, and how wrong it was to be thus constantly murmuring at their lot in life.

The next morning the lady's servant in livery came to the cottage with a message from her mistress for the old couple to go to the mansion.

The looks of discontentment vanished for once, as the old folks were delighted with such a mark of distinction from one so very rich.

On arriving at the mansion the lady received them most kindly, and thus addressed them:

"I have set you apart two rooms in my house, and so long as you attend to my wishes you will be allowed to remain here, and have everything needful for your comfort. But if you disobey any of my rules you will be immediately turned out and sent back to your old mud cottage."

"Thank you, thank you kindly," responded the old man.

"Never fear we will do anything against your wishes, ma'am," added the old woman.

"Very well," said the lady, "then you will find a home here for life."

Everything necessary for their comfort was provided, and all went on well for some time. There was one thing that somehow puzzled them.

For several days there was placed upon their dinner table a covered dish, which they were desired not to touch.

"My lady desires me to say that every dish is at your service, except that one," said the servant.

On one day, having nearly finished their hearty repast, the curiosity of the old woman was greatly excited as to the contents of the forbidden dish, and she said to her husband:

"What can it be?"

"Never mind," said the old man, we've had a capital dinner without it."

"As the lady was doing us good, she might as well let us taste every dish," added the old woman.

"Why, yes, she might as well have done handsomely,' rejoined the old man.

"There can be no harm in looking," continued the old woman, "the lady will never be the wiser for that."

The old man was silent, and silence serves to give consent. He was almost as curious as his wife about the strange dish. The temptation was so strong, and the longer it was parried with the stronger it became.

"Oh! oh! oh!" exclaimed the terrified old woman, as she started back and upset the dish on the floor.

Out jumped a mouse.

The uproar roused the lady of the house who suspected what was the matter, and she was quickly at the door.

"What, is this the return you make for my kindness? You, who were so ready to blame Adam and Eve for eating the forbidden fruit, could not obey my trifling request? You have now forfeited the privileges I conferred on you, and you must therefore leave my house immediately, and return to your mud cottage. Never blame Adam and Eve for what you would evidently have done yourself, had you been in their places."

QUITE A SPECTACLE.—One of the handsomest and best-dressed gentlemen in the city, says the New Orleans *Picayune*, is a worthy merchant, whose great personal care of himself and his addiction to flue living have procured him a rotundity which, while it detracts nothing from his good looks, utterly conceals from his own inspection his extremities. This circumstance twas on Friday morning the occasion of, to him a mortifying exposure, while others looked upon it as an amusing spectacle. Before breakfast he invariably takes a morning walk, and his urbanity and polite recognition are looked for by early pedestrians with pleasure.

Dressing himself, therefore, with great care, he sallied out, but strange to say, every one he met turned their heads and laughed, and some ladies from the gallery of a residence over he way ra n screaming into the house.

"What did it mean?"

At last he met a little boy whose immoderate laughter drew from him the indignant inquiry:

"What do you see about me, you little scoundrel, that everybody laughs at?"

"Why, Mr. D——, you've forgot to put on your pants!"

Overwhelmed with shame the old gentleman hurried home and eagerly sought out the mirror. In his haste he had carefully adjusted his attire, but had, indeed, forgot his pants.

Some people don't believe in advertising because they say "nobody reads the papers." But let them get into a scrape and you will find them flying around to the newspaper office with the request, "Please don't mention that little affair, it's all a mistake; I don't want my name published all over the country."

A MOVING SERMON.

We have the subjoined discourse, delivered by a Southern divine who had removed to a new field of labor. To his new flock, on the first day of his ministration, he gave some reminiscences of his former charge as follows:

"My beloved brethering, before I take my text I must tell you about my parting with my old congregation.

On the morning of last sabbath I went into the meeting house to preach my farewell discourse. Just in front of me sot the old fathers and mothers in Israel; the tears coursed down their furrowed cheeks; their tottering forms and quivering lips breathed out a sad, "*Fare ye well, Brother Watkins,—ah!*" Behind them sot the middle-aged men and matrons; health and vigor beamed from every countenance; and as they looked up, I could see in their dreamy eyes, "*Fare ye well, Brother Watkins,—ah!*" Behind them sot the boys and girls that I had baptised and gathered into the Sabbath School. Many times had they been rude and boisterous, but now their merry laugh was hushed, and in the silence I could hear—"*Fare ye well, Brother Watkins,—ah!*" Around on the back seats, and in the aisles, stood and sot the colored brethering, with their black faces and honest hearts, and as I looked upon them I could see a—"*Fare ye well, Brother Watkins,—ah!*" When I had finished my discourse and shaken hands with the brethering—ah! I passed out to take a last look at the old church—ah! The broken steps, the flopping blinds and moss covered roof suggested only—"*Fare ye well, Brother Watkins,—ah!*" I mounted my old gray mare, with my earthly possessions in my saddle-bags, and as I passed down the street the servant-girls stood in the doors, and with their brooms waved me a—"*Fare ye well, Brother Watkins,—ah!*" As I passed out of the village the low wind blew softly through the waving branches of the trees and moaned—"*Fare ye well, Brother Watkins,—ah!*" I came down to the creek, and as the old mare stopped to drink I could hear the water rippling over the pebbles a—"*Fare ye well, Brother Watkins, —ah!*" And even the little fishes, as their bright fins glistened in the sunlight, I thought, gathered around to say, as best they could—"*Fare ye well, Brother Watkins,—ah!*" I was slowly passing up the hill, meditating upon the sad vicisitudes and mutations of life, when suddenly out boun ed a hog from a fence corner, with aboo! aboo! and I came to the ground with my saddle-bags by my side. As I lay in the dust of the road my old gray mare ran up the hill, and as she turned the top she waved her tail back at me seemingly to say—"*Fare ye well, Brother Watkins,—ah!*" I tell you brethering, it is affecting times to part with a congregration you have been with for thirty years—ah!"

WEBSTER'S RETAINING FEE.

S. C., Jr., sends the following anecdote of Daniel Webster to the *New York Ledger*:—

One day a gentleman from New Bedford waited upon Mr. Webster in his office on Court Street—wishing to engage him for the defence of an important case in law. The visitor was himself the defendant, and the amount at stake in the suit was sixty or seventy thousand dollars. He presented all the important points, and Mr. Webster was willing to undertake the task.—But the client could not tell exactly when the case would come in.

"Very well," said Webster. "If you wish to retain me for the defence in this suit, I will hold myself in readiness, and will not engage for the plaintiff."

The gentleman asked what the retaining fee would be.

"A thousand dollars."

"A thousand dollars!"

"See what I engage to do sir. I not only hold myself at your command, perhaps a month or more, but I debar myself from accepting any offer, no matter how large, from the plaintiff."

The applicant filled out a check for one thousand dollars, and gave it to the great expounder.

"And now, sir," said Daniel, after he had put the check in his pocket, "I will give you a bit of advice gratis.—"If you can compromise this business, upon fair terms, with the plaintiff, you had better do so."

The client acknowledged his thanks, and then took his leave. Daniel sent the check to the bank, where it was duly honored.

On the very next day the gentleman from New Bedford called upon Mr. Webster again. The plaintiff was in Boston—had come up on the previous day on purpose to compromise—and a compromise had been affected.

"In short" said the cleint, "we have made a clear and satisfactory settlement."

Mr Webster was very glad; and having so expressed himself; and duly congratulated his visitor, he would have turned to other business; but the visitor seemed to have something further on his mind—something that made him restive and uneasy.

"Of course," he ventured, after a pause, "I shall not require your services, Mr. Webster."

"Certainly not, sir,"

"And—and—how about the thousand dollars I paid you?" faintly querled the gentleman, who could not see the propriety of paying such a sum for services which were never to be rendered."

"O—ah," responded Daniel, with a bland smile, "you don't seem to understand. It is very simple. That was a retaining fee—called, in law; a retainer. What should I retain if not my fee?"

And the gentleman from New Bedford went away thoroughly instructed in the legal signification of "a retainer."

HOW FARMERS CAN KEEP THEIR FARMS PRODUCTIVE.

This subject is one of the special interest, and deserves the attention of every agriculturalist. By what method is the richness of the soil to be preserved and continued in productive state? This question is based on the following assumptions, viz: that the amount of produce depends on the quantity of manure applied as food for plants, of whatever kind they may be. Although nature has furnished man with a soil of virgin richness and fertility, it cannot continue so while we draw from it yearly, and continually, our vast resources of food and clothing. The soil must be renovated, or it will cease to yield her increase for the supply of our wants. The farmers of the Southern States, by neglecting to renew their exhausted lands, have become poor, and in many instances have abandoned them, as worn out and worthless. Whereas, had they, from time to time, renewed the fertility of their lands with suitable manure, there would not now be seen those vast, deserted and worn out plantations that exist in that section of the Union. If we do not renew the fertility of our soil, it will cease to recompense us for our toil. We must expend money and labor upon it, in order to provide for our wants and those of our families. In order to develope the resources that nature has imparted to the soil, it must be well tilled.

Suppose a man should take a quantity of new land for the purpose of gaining a livelihood, and should yearly plant it with corn, or sow it with wheat; if he should neglect to renew it, in a few years it would degenerate, and his crops would grow scantly and soon fail altogether. Now what is necessary to keep his land in good condition is thorough cultivation, by draining, (if it be wet) and by careful aud judicious manuring; deep plowing, also, and harrowing are necessary to pulverize the soil, and give free passage to the roots of plants to descend. By thus conducting his farm, the owner may for an indefinite time, reap a sure and plentiful reward for his labor, and at the same time keep his lands in prime condition.

It is not judicious management of a farm to plant or sow oue kind of grain from year to year, as this will soon exhaust the soil, unless highly manured. A rotation of crops is indispensible also, to prevent the land from degenerating. As to the kind of fertilizers to be used, almost every farmer knows, or ought to know, what kinds are best adapted to his lands. Barn-yard, stable and hog manure, ashes, lime, guano, and all kinds of vegetation in a state of decay, are useful manures, and should be carefully preserved for use.

"I WISH I HAD CAPITAL."—So we heard a great strapping young man exclaim the other day. We concluded that he wanted practical advice, and we shall give it to him.

You want capital, do you? And suppose you had what you call capital, what would you do with it? Haven't you hands, feet, muscle, bone, brains, health, and don't you call them capital? What more capital did God give anybody?

"Oh! but they are not money," say you. But they are more than money, and nobody can take them from you. Don't you know how to use them? If you don't its time you were learning. Take hold of the plow, or hoe, or jack-plain, or broad-ax, and go to work. Your capital will then, in due time, yield you a large interest. Ay, but there's the rub, you don't want to work, you want money on credit, so you can play gentleman and speculate, and end by playing the vagabond.

Or you want a farm with plenty of hands upon it to do the work, while you run over the country and dissipate; or you want to marry some rich girl who may be foolish enough to take you for your good looks, that she may support you.

Shame on you, young man! Go to work with the capital you have, and you'll soon make interest enough upon it to give you as much money as you need, and make you feel like a man. If you cannot make money on what capital you have, you could not if you had a large amount in cash. If you do not know how to use bone, muscle, and brains, you would not know how to use gold; you would only know how to waste it.

Then don't stand about idle, a great helpless boy, waiting for something to turn up, but go to work. Take the first work you can find, no matter what it is so that you do it well; always do your best, if you manage the capital you already have, you will soon have plenty more to manage; but if you can not or will not manage the capital God has given you, you will never have any other to manage. Do you hear young man?

GYPSUM.—Mr. Willard says:—It has been estimated that in Herkimer Co., a third more feed is obtained from the land one year with another by the judicious use gypsum. However this may be, the increase in grass from its use both in meadows and pastures, is very considerable, and dairymen regard "plaster," as it is termed, as one of the important adjuncts in dairying. It is certain that our pastures are kept fresher and greener by the use of "plaster," and a neglect in its application for any considerable time is made apparent in the milk pail, and decrease of the cheese product.

The New Haven *Lever* sounds this note of warning: "Beware, young man! The pearl powder now used by her is poison! One touch of those eager lips to that enamelled cheek may result in death most horrible! Bewarrrre!"

LIVE TEMPERATE.

A "merchant prince" of New York—a portly six-footer of great manly beauty, who never dined without his brandy and water nor went to bed without a terrapin or oyster supper, and who was never known to be drunk, died of chronic diarrhœa—a common end to those who are never intoxicated and never out of liquor. *Hall's Journal of Health* gives this account of his death:

"Months before he died—he was a year in dying—he could eat nothing without distress, and at death the whole alimentary canal was a mass of disease; in the midst of his millions, he died of inanition. That is not the half, reader. He had been a steady drinker, a daily drinker, for twenty-eight years. Scrofula had been eating up one daughter for fifteen years; another is in the madhouse; the third and fourth were of unearthly beauty; there was a kind of grandeur in that beauty; but they blighted and paled, and faded—into heaven we trust—in their sweet teens; another is totering on the verge of the grave, and only one is left with all the senses, and each of them is weak as water."

The same periodical instances another case that should supplement the one just given:

"A gentleman of thirty-five was sitting on a chair, with no specially critical symtoms present; still he was known to be a 'dissipated young man.' He rose, ran fifty feet, fell down, and died. The whole covering of the brain was thickened, its cavities were filled with a fluid that did not belong to it, enough to kill a half a dozen men with apoplexy; a great portion of one lung was in a state of gangrene, and nearly all the other was hardened and useless; blood and yellow matter plastered the inner covering of the lungs, while angry, red patches of destructive inflamation were scattered along the whole alimentary canal. Why there was enough of death in that one man's body to have killed forty men. The doctor who talks about guzzling liquor every day being 'healthy,' is a perfect disgrace to the medical name, and ought to be turned out to break rock for the term of his natural life, at a shilling a day, and find himself."

FURTHER NOTES ON BREAD-MAKING.—Janet, of Harrisburg, Penn., takes exception to certain ideas on this subject which have had currency threugh the medium of the "Housekeepers' Club." Janet, who speaks as one with authority, thinks the reporter of the discussions of the association named has fallen into a mistake, especially in relation to brewers' yeast. "Brewers' yeast," says Janet, "rises in two hours, and bread set at two or four in the afternoon, and left to rise all night, would be very sour in the morning. And then, to use soda to correct the acidity that she carefully allowed to generate is not making the matter much better. Soda ought to be used very little by a housekeeper who regards the health of her husband and children, as well as her own. It certainly should never enter into bread at all. It is bad enough to have yeast in it. The time is coming, I apprehend, when we shall make bread without even this ingredient." In continuation of this discourse, Janet proceeds pleasantly and forcibly as follows:

"Flour in bread has a delicious sweetness that nothing should destroy.

"It has been said of republics that they may rise to a certain height of national prosperity, and then must as assuredly decline. This we deny with regard to republics, but it is certainly true as to the staff of life.

"There is a point at which the sweetness has departed, even before the sourness begins. The great art is to arrest the fermentation before it reaches this point."

PEBBLES.—Never stare any body full in the face, it is rudelyimpertinent.

Insolent or hanghty words, even to the meanest, always degrades the person who uses them, in the eyes of sensible people.

Never interrupt a person when he is speaking; wait till he is done, and then answer respectfully.

Churlishness will render any man disagreeable, while good humor will gain love and esteem.

Never seek to be witty at the expense of others, it discovers an uncultivated mind.

Avoid unprofitable discussions, they engender strife.

Mere external beauty is of little value, and deformed of penson, when associated with excellent qualities of mind and heart, should not preclude our respect and approbation.

When we suffer ourselves to be ruled by passion, our minds resemble the puddle in a storm, and as oil poured upon the waters will allay the waves, so reason, if we hear her voice, will calm the tumultuous raving of passion.

The Rome correspondent of a London paper, writing in regard to the Œcumenical Council, says that the dogmatic definition of the Assumption of the Virgin Mary will encounter no obstacle, but that the erection into a dogma of the necessity of the temporal power is not considered possible by its most ardent champions.

Letters received by the British Minister at Washington indicate that her Majesty's Goverment is prepared to reduce the single rate of postage between the United States and Great Britain to three-pence, and therefore that the early adoption of this measure of postal reform is highly probable.

An exchange says, in a town in Maryland, pic-nics are wound up by the girls standing in a long row, while the young men go along the line and kiss them all "good night." Wish we lived there.

The Bedford Gazette.

Thursday Morning, November 18, 1869.

The *Genius of Liberty*, published at Uniontown, and a few other papers of like character, have, since the election, fallen to abusing Judge Packer and the Democrats who favored his nomination. Had Judge Packer been elected, the editors of such sheets would have employed their pens in writing his praises, and would have courted the favor of his friends. Only cowards strike at those who are down. It was not the fault of Judge Packer, nor of his friends, that he was not elected. Notwithstanding the popularity of Mr. Pershing, (who is a "Western man") he was defeated by nearly four thousand and more than Judge Packer. In all the strong Democratic counties of the Eastern part of the State, excepting only Luzerne, Wayne, Schuylkill and Bucks, the majorities of last fall were either maintained or increased, whilst Bradford, Tioga, Susquehanna, Union, Snyder, Dauphin, Lancaster, Lebanon, Chester and Delaware, strong Radical counties in the same section, fell off in their majorities for Geary. In Luzerne, Schuylkill and Wayne, the mining associations, it is said, were tampered with by the Radical State Committee. This would have been done had any other than Judge Packer been our candidate. Philadelphia, owing to the quarrel in the party over the local nominations in that city, and the most stupendous frauds on the part of our opponents, gave a large majority for Geary. Would the result have been different if another had been our standard-bearer? Hardly. The fact is that some forty thousand Democrats who voted last year did not go to the election, last October. Had these laggards turned out, Packer would have been elected by at least 30,000 majority. And thereby hangs a tale. Unfortunately for Judge Packer, there were too many persons like Gibson, of the *Genius of Liberty*, who made a full vote in their particular localities entirely dependent on the amount of cash furnished them by the State Committee. The writer of this article recollects walking down Fourth Street, Philadelphia, with this same Gibson, some two months before the election, when, the conversation turning on the political prospect in Fayette county, the latter said: "Well, it depends altogether on what is done for our county by the State Committee. We have two Democratic candidates for Prothonotary, and unless the independent candidate, who also claims to be the regular nominee, is paid a fair sum, I cannot say that Fayette county will give much majority for Packer." To which the writer replied, with some indignation, "That is a pretty state of affairs! Must Democrats be paid in order that their votes and influence may not be lost to the Democratic cause?" "Oh!" said Gibson, "Everything depends on money now-a-days." And now this fellow, who goes abroad slandering the Democracy of Fayette county, by declaring that they will not support the regularly nominated Democratic candidates unless he is furnished with money to buy them, wantonly attacks certain gentlemen who were friendly to the nomination of Asa Packer. Didn't he get the fee he was looking after in Philadelphia? Wasn't the sum he deemed necessary for the purchase of the independent candidate for Prothonotary furnished him by the State Committee? It would seem not. His sore head was evidently not plastered with greenbacks or it would have healed up long ago. The Democracy of Fayette county, however, are not of the purchaseable kind, Gibson to the contrary notwithstanding. With such men as Hons. Charles E. Boyle, W. H. Playford, Daniel Kaine, and others of like character and ability, to lead them, they laugh at the efforts of corruptionists like this Gibson to demoralize their organization. Yet it was the cupidity of just such fellows as this, that kept thousands of voters from the election and that really brought about the defeat of Judge Packer. Since the election it is their cue to denounce and traduce the friends of Judge Packer, and to impugn the motives and disparage the judgment of leading Democrats who favored that gentleman's nomination. The very fact that they do not hesitate to open up a discussion which can end only in acrimonious and hurtful dissensions, is proof of their infidelity to the interests of the party. Cannot these miserable camp followers bide their time? Can they not wait until through the untiring and unselfish efforts of the men whom they traduce, the Democratic party shall have been placed in power? Let them stand back and hold their vile tongues.

Hon. Robert J. Walker died in Washington city, on the 12th inst., at a quarter before eleven o'clock, after a protracted illness. The deceased was aged sixty eight years and four months.

THE SENATORIAL QUESTION.

Mr. Scull, of the Somerset *Herald & Whig*, late Radical candidate for Senator in this district, claims that his case is parallel with that of Findlay and Meyers in 1864. In the latter case certain returns from the army were rejected by the return judges of this county, and, therefore, argues Mr. Scull, the Somerset return judges were this year justified in rejecting the returns from Alleghany township. The difference between the two cases is broad and plain. In the present one there is no allegation of fraud. In that of 1864 fraud was not only alleged, but the returns which were rejected by the Bedford return judges, contained intrinsic evidence of it which was irresistible. For instance, some of those returns showed twice as many votes as there were names of voters on the tally lists. Here was a palpable fraud, and the Prothonotary refused to certify returns so clearly of a fraudulent character. The return judges, of course, could not count returns which were not certified to them according to law, but we doubt whether they would have hastened to adjourn at twelve o'clock, if they had been told that at half past twelve a proper and lawful certificate would be laid before them.

But if Mr. Scull's case is "on all fours" with that of Findlay and Meyers in 1864, how can he hope to get the seat? Will not the rule established in that case "work both ways?" Or was it made only for the benefit of Radical candidates? In the case of Findlay and Meyers two returns were made to the House of Representatives. The return showing the smaller number of votes in the aggregate, gave the election to Findlay and Meyers; that showing the larger number gave it to their opponents, Ross and Armstrong. The House decided that the two returns must be taken together and counted as one return. Under this decision, the return showing the larger number of votes in the aggregate became *the* return, and that showing the smaller number was construed as a part of it. Now if in this Findlay-Scull case, the Senate follow this rule, (and if they regard law and precedent they must do so) the return which shows the larger number of votes in the aggregate will be regarded as *the* return, and the return which shows the smaller number as a part of it. This will establish a *prima facie* case for Mr. Findlay, because the larger return gives him the election by twenty-three majority.

The full returns of the recent election for members of the Massachusetts Legislature show that the Senate will contain thirty Republicans, nine Democrats, and one Labor Reformer; and the House one hundred and sixty-six Republicans, fifty Democrats, and twenty Labor Reformers. It is not accurately known how the members stand on the liquor question—the Prohibitionists claim a majority in the Senate, but concede the House to their opponents. On questions of State and National politics, neither party will have the strength to carry extreme measures, and the minority exhibits greater strength and ability than it has possessed for many years.—*Lancaster Intelligencer.*

Dispatches from New York state that Collector Grinnell and District Attorney Pierrepont are busily engaged in investigating the frauds perpetrated in that hot-bed of corruption, the New York custom house. They have already ascertained that the government has been defrauded out of at least one million of dollars. How forcibly this reminds one of the celebrated declaration of Representative Dawes, "that his [the radical] party had stolen more money in a single year than was spent in the whole four years of Mr. Buchanan's administration."

One year ago the six States of Massachusetts, New York, New Jersey, Maryland, Wisconsin and Minnesota gave 61,887 majority for Ulysses S. Grant. On Tuesday 2 inst. the same six States gave about 20,000 majority for the Democrats—a Democratic gain of about 81,000 in one year!

Hon. Amos Kendall, who held the position of Postmaster-General during a portion of Jackson's and Van. Buren's administrations, died on Friday morning, the 12th inst., at *Kendall Green*, his residence, near Washington, D. C., aged eighty years and three months. Only the members of his family were present.

Rear Admiral Charles Stewart, the oldest and one of the most distinguished officers of our Navy, died at Bordentown on the 6th inst., at the ripe age of ninety-one years. Charles Stewart was born in Philadelphia on the 28th of July, 1778.

The Hon. Charles A. Wickliffe, of Kentucky, who died on Sunday, the 31st October, was one of the last of the statesmen of the old school. He had filled many important posts under the government; his last public service was as a member of the Thirty-seventh Congress.

Major General John E. Wool died on the 10th inst., at his residence in Troy, New York, aged eighty years.

MOVEMENT OF GRAIN.

It is estimated that the total production of grain in the United States for the current year will amount to fourteen hundred millions of bushels. Of this, wheat comprises nearly five hundred millions of bushels, and corn about seven hundred millions of bushels. This vast product is now being collected, in the Northern States, principally, and moved to points of consumption, traffic, and export. In this grain movement all the means of carriage in the country are being used extensively, and, in some cases, are deemed entirely insufficient. Merchants and shippers complain of high tariffs, and insist that, although our country is the granary of the world, yet, in consequence of high local rates charged, it is impossible for us to compete sucessfully for the supply of Europe against Russia. The steadily-increasing export of breadstuffs to England, which is our best market, would seem to show that this complaint is well-founded.

Let us hope that facilities for the movement of grain will be constantly augmented in our country, and that every effort will be made to build up the material wealth of our people in this way. There can be no question that ultimately the principal supply of breadstuffs for Europe must come from the United States, and nothing should be allowed to militate against our success, even for a single season. By such action on the part of capitalists and transportation companies we feel confident an ample return would be secured. Some system should be adopted equalizing the rates of carriage on long and short routes. If this could be promptly agreed upon, it is evident that we could place grain in Liverpool as cheaply as the Russians, and probably we could afford to dispose of it at rates far below those now ruling in that city.

While it may be impossible to do away with certain sorts of speculation in breadstuffs, it is our duty to assist the producer in placing his grain at a distributing depot at low rates, so that his profit may be encouraging. According to the present regulations, it is said that it costs nearly as much to send a barrel of flour or bushel of grain fifty miles in the country, as it does to ship the same article from St. Louis to Philadelphia. A change in this matter would be popular, just, and in the end remunerative, and we trust that the directors of main lines will give this subject the attention it deserves.—*The Day.*

Sudden Changes.—At this season delicate and old and feeble persons should be more than ordinarily careful to guard against sudden changes of temperature. It is better to wear thick clothing in advance of the extreme cold weather, as one is then ready for it, and can be in anticipation of rather than following the season. To old persons particularly the caution to keep warm is necessary, as they have less power to rally when chilled, and what multitudes of old people die suddenly from being simply "chilled," every physician knows too well. It is not amiss to remark, in this connection, that churches are the death of many persons. Very few sextons seem to have an idea about temperature, and they will keep a church shut up all the week in weather like the present, until it is as cold and damp as a vault, and then make a fire on Sunday morning, in a stove which cannot by any possibility, warm the edifice before night. The consequence is that the church is cold, damp and uncomfortable in the morning, and every one feels chilly, while at night the fires having been left to burn fiercely all day, the church is much too hot, and those who go from its heated atmosphere into the cold air without are almost certain to take cold. If the fires in churches at this season were made on Friday they could be left to die out on Saturday night, and the result would be a room dry and comfortable but not overheated.

Did You Ever?—Ever what?

Why, when the good old Democratic party was in power, did you ever hear of spies nosing among your private goods to see if you have complied with the provisions of an unknown and unpublished law?

Did you ever hear of stamps?

Did you ever have to swear as to how much money you made?

If a manufacturer, did you have to make a monthly report to some lazy official at five or ten dollars per day?

Did you ever hear men (as you now do) advocate the policy of paying the laborer with paper rags and the money shavers with gold?

Did you ever hear of tax on everything you eat or wear, in addition to a State, County and municipal tax?

Did you ever hear of a President riding about in a steamboat wholly for his own use at the expense of the people, when he was receiving a salary of $25,000 per year?

Did you ever hear that a negro was better than a white man?

Murder of a Catholic Priest.

The following dispatch appeared rin the Cincinnati *Inquirer* of the 10th.

Bellefontaine, O., Nov. 6.—About seven o'clock last evening, Father M'Gowan, the Catholic priest of this place, was shot and instantly killed by a man named Thomas Powers. Father McGowan was sitting in his room reading his prayer-book, when Powers entered revoler in hand, and, taking a steady aim, shot him dead. No one was present at the time.—Having committed the deed, Powers walked to the jail and delivered himself up, at the same time handing his revolver to the jailor. A hundred rumors are afloat as to the cause of the murder, but nothing definite can be ascertained in the midst of the intense excitement which pravails. Powers is of Irish descent and has several very respectable relations residing here.

The Connellsvile Railroad, over which there has been so much litigation, is now completed to within three miles of Connellsville.

NEWS ITEMS.

Reports of remarkable storms and phenomena in various parts of the country continue to come to us, but the most singular and notable phenomenon of the period was observed a few days since at Corinth, Mississippi, when that city was favored with a genuine African mirage. About sunset, after a chilly, foggy day, last week, the sun peeped out from behind the thick clouds which had obscured it for hours, and the mirage or *Fata Morgana* was visible, and was witnessed by a great many persons. The trees, underbush, railway cars, and a foundry in the outskirts of the city seemed hung upside down on the clouds, even persons who were walking along the railroad track had their images reflected apparently in mid air, with heads to the earth and feet to the sky, and this with startling vividness.

It has been determined to lay a cable from some point in Belgium to the United States, and a concession for this purpose has been granted to an American Company by the first-named power. The tariff of rates for messages will be much lower than those charged by either the English or French Transatlantic Telegraph Companies. The American directors of the new cable corporation, Messrs. W. C. Barney, C. E. Paulding and J. S. Bartlett, announce that the probable rate for a message of ten words from Portland to Paris will be about one dollar in gold.

The Legislature of Iowa will meet in a few weeks and elect two members of the United States Senate, one for the full term beginning March 4, 1871, and one to succeed Mr. Grimes, who will tender his resignation. As the unexpired time is short it is said that no prominent citizen of the State will consent to be a candidate.

Many of the Indians of the Whetstone Agency, in Dakotah Territory, having of late been getting drunk, by some mysterious means unknown to the agent, great disorder prevails, and as one of the results, Spotted Tail, chief of the Brules, a few days ago shot and killed Big Mouth, chief of the Ogallallahs.

Traces of ancient cities, arranged in streets running at right angles to each other, but covered several feet deep with sand, have been discovered in Nevada. The stones had evidently been cut with hard tools, although their forms were nearly destroyed by the lapse of centuries.

Two brothers, Hamlet and John Van Vorce, the one aged eleven and the other fourteen years, in Williamsport, were handling their father's navy revolver on the morning of the 6th inst., when the weapon was accidentally discharged, the ball passing entirely through the body of the younger boy, causing immediate death.

A cargo of coolies on board the Tahiti Cotton Company's bark, Margaret Condor, mutinied about six months ago, and killed the captain and two officers. The mate escaping to the hold, placed a keg of powder under the main hatch, whither he caused the coolies to congregate, and then blew them up, killing nearly all of them. The rest jumped overboard or were put to death by the mate, and the vessel was taken safely in to Tahiti.

The great Western scandal, arising out of the suit of Lucy J. against Benjamin C. Sandford for divorce, on the ground that he had committed bigamy, is somewhat obscured by the dismissal of the suit at the instance of the plaintiff, who, it is now alleged, has been pretending to be defendant's wife and only brought the suit when he refused any longer to submit to black mail.

A little boy, 6 years of age, and his two sisters, 5 and 3 years old, respectively, children of Mrs. Lewis, of New Orleans, wandered into a swamp in the Second district, a few days ago, and lost their way. When night came on the heroic little fellow stripped himself of his clothing and wrapped it around his sisters, and they laid down on the ground to spend the night. When found in the morning all were insensible. The youngest has since died.

New York is disturbed at the falling off in the receipts of coal. Last week only 120,000 tons arrived from the Schuylkill regions, which is nearly 20,000 tons less than is needed and was expected. The causes of this are various. There is a scarcity of miners, rates have not ruled as high as was anticipated, and speculators find more profitable channels for their operations.

General Cespedes, the leader of the Cuban revolution, has again given a pledge of his earnestness in the cause of liberty even more brilliant than the burning of his large Bayamo property. He now proposes to give to each family who has a father, son or brother martyred for independence, a tract of thirty-three acres of land. Cespedes owns in his right thousands of acres of the most valuable land in Cuba.

In the case of Mrs. Margaret Beck and children against the Northern Central Railway Company, suing in the City Court for $50,000 damages, on account of the violent death of the husband and father by an accident on that road, the jury last week returned a verdict in favor of plaintiffs to the extent of $18,000.

The Lutherans, in Convention, at Chicago, declined to act on the Pope's letter addressed to "all Protestants, or non-Catholics," on the ground that they are not non-Catholics. They say that they are Protestants against Rome only because Rome is herself non-Catholic, and that, should they recognize the letter meant for them, they would thereby "grant an untruth," and "fix a stigma upon themselves."

Complaint is made that proper notice has not been taken by the press and people of Philadelphia of the death of Thomas Gordon Penn, the last direct male descendant of Pennsylvania's illustrious founder, which occurred at Tunbridge Wells, England, on the 10th of September last.

The Japanese colony in El Dorado, Cal., is doing well at last accounts, though many have been prevented from joining them by the troubles in Japan. They are having good success with tea, silk-worm, and oil-plant culture.

An African lion escaped from his cage in Sullivan, Illinois, while the menagerie of which he was the principal attraction was exhibiting there. His keeper found an opportunity while the beast was crouching for a spring, to deal him a powerful blow on the head which stunned him, and he was picked up in a helpless state and restored to his narrow quarters behind the bars.

It is feared that the Union Pacific Railroad will be blocked up with snow occasionally during the months of January, February, March and April, 1870. The earnings will fall below previous estimates in consequence. The annual gross earnings of the Central Pacific or California end of the line, will be about $8,000,000, while those of the Union Pacific, or eastern end, will approach $7,000,000.

The wheat fields in most parts of the State look very promising. A great many fields were sown later than usual, but the recent heavy rains caused the grain to spring up rapidly, and the latest sown fields are now green and thrifty.

A furiously written epistle was found posted on the window of the San Francisco Bank of California a few mornings since. It stated that the writer was at the head of seven hundred men sworn to "massicree every Chinaman and Chinawoman in the city of Sanfrisco & 10 miles Round a bou," if they didn't leave within fifty days.

The immediate cause of Mr. Peabody's death was congestion of the lungs, and he passed away without much apparent suffering. He expected to return to America.

Henry Clay's cradle was sent to the Virginia State Fair for exhibition, but greatly to the mortification of the kind lady who sent it, it was "unavoidably thrown out," as the committee express it.

The Union of Old and New School Presbyterians--Great Rejoicing.

Pittsburg, Pa. Nov. 12.—The assemblies met in their respective chambers this morning, and after impressive devotional exercises finally dissolved, and the announcement was made that the united assembly would meet in the First Presbyterian Church in Philadelphia, on the third Monday in May, 1870, after which each assembly formed in line and marched to the street fronting the first Presbyterian Church, when the new and old school commissioners joined arms, the union being greeted by the clapping of hands and waving of handkerchiefs by an immense crowd of spectators. The procession moved to the third church, where a union meeting was held. Telegrams were sent to the Presbyterians in Great Britain announcing the union. The Scriptures were read, and an address made by Dr. Fowler, who at the close, clasped hands with Dr. Jacobus and pronounced the union complete. Impressive addresses were made by Drs. Jacobus, Musgrave, Adams, Holliday and Judge Strong, Senator Drake, Hon. Wm. E. Dodge and others. Dr. Fiske offered a resolution calling on the church for a thank offering of five million dollars for mission purposes, which was adopted.

More Earthquakes in South America.—*Several Villages Destroyed*, &c.—Dates from Valpariso to October 3d and Lima to October 13th had been received at Panama. There had been no earthquakes or tidal waves up to those dates, and the people were returning from the high lands to their homes. The volcano Purace, in the interior of Colombia, has been in a state of eruption recently, and two or three villages are reported to have been destroyed with all their inhabitants. Soon after the eruption the river Cruca, at the town of Popayan, fifteen miles from the volcano, rose quite high. Great quantities of lava, thickly strewn with the dead bodies of persons killed by the hot emission, were seen. The next day the river was dry. A slight earthquake occured at Quito, Ecuador, on the 18th of September. No damage. From Tacna, Peru, we hear of a strong earthquake having occurred on the 7th inst., but correspondents from other southern localities express their surprise of absulutely no movements of the earth having taken place during the past fortnight, when nearly everybody forsook his home in anticipation of them.

Financial embarassments in the West have been aggravated by the action of crop-purchasers and growers in holding back the vast grain productions of the past summer, in the hope of obtaining higher prices this winter. Now hundreds of these cereal speculator are being brought to grief by a disastrous decline in prices, and in their anxiety to realize, it is probable that many markets will be glutted in a short time, forcing still further depreciation of values. Had they permitted their grain to come forward during the past three months, fair rates could have been obtained, and the losses from wastage, leakage, shrinkage, rats, &c., could have been prevented.

The intelligence that a single tribe of Indians in Montana Territory has lost over five hundred of its members from small-pox, is exciting general remark throughout the country, and argues strongly the importance of vaccination. The ravages of small-pox were similar in Europe before Dr. Jenner made his great discovery, and the malady would soon resume its old fearful sway but for the barrier which vaccination presents to its progress. It may be true that the introduction of vaccine matter into the human blood is, in some cases, possibly, deleterious; but when we think of what horrible ills it preserves us from, specifically, we should not hesitate to apply it to every human being at the threshold of existence.

Mr. William T. Marshall shot and killed a negro named Dudley Hutchison, in Augusta, on Saturday last. The negro had threatened to kill Mr. Marshall, who had interfered to prevent him from whipping his wife. Mr. M. was arrested, but was immediately discharged, the killing being considered justifiable.

There were three tickets voted for in Minnesota last month, and the vote for Governor is so close that nothing but official canvass will determine who is elected Chief Magistrate of that thriving Commonwealth.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Cataarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

Dr. J. H. SCHENCK,
may28y1 15 N. 6th St., Philada., Pa.

Words of Wisdom for Young men,

On the Ruling Passion in Youth and Early Manhood, with Self Help for the erring and unfortunate. Sent in sealed letter envelopes free of charge. Address, HOWARD ASSOCIATION, Box P., Phila., Pa. may28,'69y1

Sales.

Valuable Land for Sale

—The undersigned offers for sale the following valuable bodies of land:

Three Choice Tracts of Land, containing 160 acres each, situated on the Illinois Central Railroad, in Champaign county, State of Illinois, 8 miles from the city of Urbana, and one mile from Rentual Station on said Railroad. Two of the tracts adjoin, and one of them has a never failing pond of water upon it. The city of Urbana contains about 4,060 inhabitants. Champaign the greatest wheat growing county in Illinois.

Also—*One-fourth of a tract of land*, situated in Broad Top township, Bedford county, containing about 45 acres, with all the coal veins of Broad Top running through it.

Also—*Three Lots in the town of Coalmont*, Huntingdon county.

Two Farms at Private Sale.

Now is the Time to Buy Cheap Real Estate.

A Farm in Morrison's Cove.

A Splendid Farm Within Tw Miles of Bedford.

The subscriber will sell at private sale, on very very reasonable terms, and at reduced prices, the following described, very valuable real estate, viz:

A Tract of Land situated in Morrison's Cove, about one mile from Lafayetteville, and four miles from Woodberry, in Middle Woodberry twp., containing 102 acres, more or less, about 45 acres cleared and under fence, with one and a half story log house, log barn, blacksmith shop and other outbuildings, adjoining lands of Jackson Stuckey on the east, Christ. Kochenderfer on the north, John Keagy on the west, and Ignatius Brant's heirs on the south This can be made one of the neatest and most pleasant little farms in the Cove with very little expense. There is an abundance of water, plenty of fruit and splendid timber upon it—all that is necessary to make it desirable.

Also,

A most excellent tract of lime stone and river bottom land, within two miles of Bedford, containing 228 acres, about 150 acres of which are cleared and in a high state of cultivation and the balance well timbered. There are excellent new building erected thereon with a well of never failing water at the door. There are two orchards of choice fruit upon it. 75 acres of meadow, (River Bottom) can be cultivated with trifling expense. The upland is in a good state of cultivation, well set with clover and under good fence. There is sufficient timber upon it to pay for the farm several times if thrown into the Bedford market. Apply to

J. R. DURBORROW, Attorney at Law,
14maym6 Bedford, Pa.

Executor's Sale of Real Estate.—The undersigned, Executor of the last will, &c., of John Miller, late of Cumberland Valley Township, dec'd., will by virtue of the power given him by the said Will, sell at public sale, on the premises in said Township, ON SATURDAY, the 4th day of DECEMBER, at 10 o'clock, a. m., of said day, all the Real Estate of said deceased, situate in said township, consisting of a TRACT OF LAND containing 67 acres, more or less, part improved, with an orchard and never failing spring of water thereon:—adjoining lands of Lorenzo D. Cessna, Henry Miller, Henry Miller, Jr's heirs, Adam Zembower, Thomas Growden and Jacob Miller, Jr. This tract would make a snug farm and is in a pleasant neighborhood.

Terms,—One third cash, and balance in two equal annual payments to be secured by bonds and mortgage, or judgments.

HUNTINGDON AND BROAD TOP R.R.—WINTER ARRANGEMENT.—TIME TABLE.—On and after Sept. 16th, passenger trains will arrive and depart as follows:

Mail Train leaves Mt. Dallas at 1.00 p. m., arrives at Huntingdon at 4.20 p. m.; leaves Huntingdon at 8.40 a. m., and arrives at Mt. Dallas at 11.52 a. m.

Accom'n Train leaves Saxton at 8.20 a. m., and arrives at Huntingdon, at 10.10 a. m.; leaves Huntingdon at 5.55 p. m., and arrives at Saxton at 7.41 p. m.

TO THE PUBLIC.

In consequence of the great scarcity of money and our inability to collect from those indebted to us, we have been obliged to suspend. We believe that we have good assets sufficient to pay our debts and hope that our creditors will have patience. We expect to have arrangements made in a few days under which the business will be resumed. REED & SCHELL.

Bedford, Pa., Nov. 16, 1869.

Altoona has re-named her streets.

Somerset has two weeks of court, commencing on Monday, 22nd inst.

Lawyers must sleep more comfortably than people in general—it is immaterial on which side they lie.

School books were never sold cheaper than by H. Heckerman & Son, Bedford, Pa.

Poor whisky is called "Fifteenth Amendment" in the South, because it is hard to swallow.

There will be six eclipses of the sun and moon next year, but none of them will be visible in the United States.

An exchange says: "It is safe to eat oysters in the shell—if you can."—But "if you *can*," how can you eat them "in the shells."

The cold nights have put a damper on gate and door step sparking. She now says, "come in and shut the door," and in cometh the delighted swain.

MEAT CURE.—This preparation is put up by H. Heckerman & Son and is guarantied to be the best article for preserving meat now known.

The new Catholic church, at Ebensburg, was dedicated on Sunday last. The venerable Father Heyden, of this place, assisted in the ceremonies and preached the dedication sermon.

In our list of Poor House appointments, last week, we forgot that of Treasurer. Mr. William Bowles, the old Treasurer, was retained.

Heckerman's Regelon has done wonders by relieving the suffering of those who have bunions and who have had their feet frozen.

The "guerrilla" organ of John Scott & Co., heretofore published at Mount Union, has been removed to Huntingdon. How Dad Lewis will blow now!

The days are growing provokingly short at both ends—i. e. for those who have anything to do. To those who haven't, it doesn't make much difference where the duty begins or ends.

WANTED.—At Crouse's Segar manufactory, five good honest, industrious boys are wanted to stem leaf—Wages good. Apply at once to D. W. Crouse.

Job, of old, had a great reputation as a man of patience, but Job M. Shoemaker, has a decided popularity as a Dry goods man. A fine stock just received and selling rapidly, at low figures. Call and see.

An eminent physician says that the white rubber used for nursing bottles and infants' toys is very poisonous, causing sore mouth, skin eruptions, decayed teeth, spinal curvature and death. In Europe the sale of it is prohibited by law.

The following interesting items we clip from the Fulton Republican:

QUERY.—What has become of HOLAHAM?

PERSONAL.—The Hon. John Cessna and family, started last week, to South Carolina, and will be gone about one month.

G. R. Oster & Co., are receiving and opening daily the choicest lot of goods ever brought to Bedford. It is astonishing to see how many goods this firm is selling, all the time. Oster & Co. always keep the best. This accounts for the large patronage they receive.

INSTALLED.—Mr. George Elder, the new Commissioner, took his place in the Board on Monday, *vice* Mr. David Howsare, whose term expired. The retiring member, Mr. Howsare, has been a faithful servant of the people, during his term. The new man, Mr. Elder, is one of the best men in the county, and will undoubtedly make an excellent officer. The Board consists, at present of Messrs. Peter M. Barton, Daniel P. Beegle and George Elder.

DWELLING BURNED.—Last Wednesday morning, the dwelling house of Mr. Joseph S. Diehl, of Colerain township, was entirely consumed by fire. Mr. Diehl was in Bedford at the time, and there was no one about the house but a few women. Through the aid of several neighbors, a part of the household furniture was saved. The fire originated from the pipe of the stove. The loss is heavy. No insurance.

To-day, (Tuesday,) "It snows! It snows! from out the sky, the little feathered flakes do fly," and it looks really as though we were in mid-winter. The prospects of a good fall of snow are very flattering, and in a few days we expect to hear the merry peals of the sleigh bells, and the gay and joyous laugh of the fair belles who enjoy a drive over the smooth surface of the bedded snow. Oh! what delightful sport is sleighing, especially the upsetting into snow banks and other et ceteras incident to that great enjoyment of winter.

FATAL ACCIDENT.—William Ingard, of Puttstown, Huntingdon county, was killed at the water station, in Saxton, on Monday last, by the passenger train running over him. The unfortunate man attempted to step on the cars while in motion and fell on the track, the train passing over him, cutting him in two, and killing him instantly.

RIOT.—A serious riot took place at Meyers Mills, on the line of the P. & C. Railroad, in Somerset county, one day last week. A number of the railroad hands having indulged rather freely in benzine, undertook to "clean out" the town with stones and other missiles. The citizens failing to appreciate this little diversion of the railroaders, armed themselves and drove the rioters from the field. Several of the latter were wounded,—one seriously.

CANNING EGGS.—The process of "canning" eggs in their own shells is something new. It was explained at a late meeting of the New York Farmer's Club. When two or three dozen eggs are obtained from the nests, place them in a dish and pour scalding water over them, and immediately turn it off. This process is repeated three times, by which means the albumen is fixed or coagulated, the pores of the shells closed and the egg, as it were, canned in its own covering. The eggs thus prepared are then packed in salt, with the apex downward, and they are said to keep perfectly fresh for many months.

CHURCH DEDICATION.—On Sunday, the 28th inst., the new Evangelical Lutheran church of the Dunning's Creek Congregation, will be dedicated to the services of the Triune God. Religious services as follows: preaching on Friday evening; preparatory services on Saturday morning; preaching in the evening; dedication on Sunday morning and communion services in the evening. The President of the Allegheny Synod, Rev. R. A. Fink, and several other ministers will be present. All the neighboring ministers, and the public generally, are cordially invited to be present.

CHURCH DEDICATION AT NEW PARIS.—Trinity Reformed Church, built during the summer and autumn, in the village of New Paris, in the western portion of this county, was dedicated with suitable solemnities to the worship of the Triune God, on Saturday, November 6th, 1869. The pastor, Rev. N. H. Skyles, was assisted in these interesting service bys the Rev. W. M. Deatrick, of Friend's Cove, who preached the dedicatory sermon. The building is a neat, plain, and comfortable one, costing about thirteen hundred dollars. Its dimensions are forty-five feet in length by thirty feet in width. About six hundred dollars were raised, at the time of the dedication, towards the debt still resting on the church.

A LIVELY WOOD SCENE.—The Lutheran parsonage was completely surrounded by a large party of wood haulers, on last Wednesday. No doubt the good pastor, Rev. J. Q. M'Atee, is prepared for almost any emergency, but this large army of stalwart men from the hills and valleys about Bedford, coming as they did with their wain completely loaded and ready for fire, took the Bishop by surprise, and the best thing he could do was to surrender at discretion which he did gracefully, and even treated the besiegers to the best his larder could furnish. After all it was a pleasant affair, and the more the event of that day is discussed during the cold wintry weather, the warmer will the folks at the parsonage become on the subject.

IMPORTANT DECISION.—We are informed that the Commissioner of Internal Revenue has decided that Farmers who peddle and sell Flour, although made of grain raised on their own farms are liable to pay a special tax as peddlers. This decision, however we understand does not prevent farmers from selling flour, made of their own grain, at their residence, provided the sales do not exceed $1,000 annually. Nor does it prevent farmers from delivering such flour where ordered, when thus purchased. The law is intended to prevent the solicitation of orders or peddling.

AN EXCITING SCENE IN THE COURT ROOM.—*A Woman Seeks to Avenge her wrongs. She Throws Sulphuric Acid into the Face of her Betrayer!*—The court room, on Monday afternoon last, was the scene of an unusual and exciting occurrence. A young lady who had been cruelly wronged, and who had sought redress through the strong arm of the law, and finding that process a rather tedious one according to her notions, undertook to take the case out of the hands of the court and jury, by inflicting a sudden and terrible punishment on the young man who had robbed her of all that is dear to woman's heart—a virtuous name. Several hours before the tragic scene in the court room, the young lady in question had procured at one of our drug stores, a quantity of sulphuric acid which she put into a common tin cup and carefully concealed the same under her shawl. She took a chair inside the bar with her attorneys, and when her betrayer came into her presence, she motioned him to come to her, and when he had reached the proper distance she threw the contents of the cup at him, intending to strike him in the face, but as he dodged, the greater portion of the acid was received on his head. This scene created quite a buzz in the court room. Lawyers in the vicinity of the affair had their broadcloth ruined, for wherever the acid touched, a brilliant scarlet was produced. The young lady was immediately arrested and sent to jail, while the injured youth was placed under medical treatment, and is now doing well. Subsequently the woman was taken out of jail and held in $1,000 bail for her appearance at the Quarter Sessions.

Read the new advertisements.

LOTS SOLD.—On Saturday last, J. W. Lingenfelter, Esq., agent for Mrs. Brashear, sold 24 town lots, adjoining the "Watson extension."—They were purchased by the following parties at the prices annexed.

S. L. Russell,	4 lots,	$117.00	each.
Robert Steckman,	6 "	111.66	"
J. W. Miller	5 "	147.50	"
Henry Bollinger,	3 "	123.66	"
Emanuel Smith,	5 "	126.00	"
M. A. Points,	1 "	401.00	"

GONE WEST.—Rev. A. J. Barrow, Rector of St. James Episcopal church of this place, has received and accepted a call from the church at Evanston, Ill. He preaced his farewell sermon in the court house, on last Sabbath evening. Mr. Barrow has been in Bedford ever since the establishment of the Episcopal congregation at this place—four years ago,—and has labored assiduously for the erection of a neat church edifice which is now partially up. The many friends of Mr. Barrow wish him success in his new field of labor. The parish will be left without a Rector for the present, but we learn will be supplied in a short time.

FIRE.—We learn from the Somerset *Democrat*, that on Friday afternoon, the 5th inst., a stable belonging to Mr. C. Krissinger, at Berlin, took fire from the sparks from the Berlin Foundry, and burned, with all its contents. It being a very windy day, the fire was communicated to the stable of Mr. Josiah Donner, which was also consumed with the entire contents. These stables were filled with hay, straw, &c., and the latter contained thirty-five bushels of wheat and a fat hog which were burned. Some of the dwelling houses in the vicinity had several times caught fire, and but for the coolness and almost superhuman work of the citizens, a general conflagration would have been the result. Among other incidents may be mentioned the fact that Emanuel Meyers came very near falling from the top of Mr. Krissinger's new building. While engaged on the roof, he lost his balance, and caught at some bricks in the chimney; the bricks came out, and he caught, by lucky chance, on the eave of the roof, and thus saved himself from a fearful fall and almost certain death.

ADVERTISEMENTS FIRST.—When a young lady takes up a paper, she glances first at the marriages and "personals;" an old lady at the deaths; a boy at the stories; the average man the news. It is only the shrewd young business man, remembering the adage, "business before pleasure," who commences in the right way, by reading the advertisements first. This, indeed, is putting a newspaper to its best use. A man who so uses it is sure to keep "posted"—to know what is going on in the busy world around him—to know where he can dispose of what he has to sell. And there is no fear but what he will get all that is valuable in the paper besides. We have heard a business man say that he thinks fifty per cent. better of a young man when he sees him, after taking up a paper, dive first into the advertising columns. It is certainly an invaluable habit for man to form—and woman, too, for that matter. If everybody who takes a newspaper would make it a point to study the advertisements before being led away by the other attractions of the paper, he would immensely benefit advertisers, immensely benefit newspapers, and immensely benefit the community. Newspapers act, like money, the part of lubricating oil to the machinery of business. They aid it to run smoothly and rapidly, and the more people make use of them, the more use they can be to them.

PITTSBURGH FEMALE COLLEGE.—The present term of this sterling institution will close on the 3d of December, and the Winter term will open on the morning of the 6th. We are pleased to learn that the term now drawing to a close is even more prosperous than the corresponding one of last year. A large number of new pupils from the city and from distant points are in attendance, and the propects for the coming term are excellent. The generous outlay of the Trustees during the past summer is meeting with a hearty response. Its excellent and well furnished buildings, large and accomplished Faculty, and its superior facilities for imparting a thorough, solid and ornamental education; as well as its excellent dicipline and high moral tone, commend it to all who have daughters to educate. It is in every way worthy of its large and select patronage, and we heartily commend it to our readers. Send to the President, Rev. I. C. Pershing, for a catalogue.

POISONED.—Two farmers in Huntingdon county, were poisoned one day last week, by eating a root which they thought was spikenard, but which was aconite, or wolf's bane.—Shortly after eating it, they were attacked by violent pains. The one drank water and almost instantly expired. The other drank milk, which acted as an antidote, and recovered.

PETERS' MUSICAL MONTHLY for November has been received. This excellent musical periodical is unsurpassed. The present number, has ten pieces of original music, besides a great deal of interesting literary matter. Published by J. L. Peters, 599 Broadway, New York, at $3. per annum.

Court is in session this week, with a fair attendance. The Commonwealth list is heavy, while civil cases are few. We will give full proceedings next week.

In a forest tree lately cut down in Wisconsin was found an Indian arrowhead, completely embedded and grown over. It appears from counting the layers of wood over it, that ninety years have elapsed since the arrow which it tipped was shot at the tree.

Mrs. Bryant, of Freidom, Ohio, made a suit of gray clothes for herself fifty years ago, and never used them till last week. And yet her son-in-law was anxious to see her try them on from the very start.

PETERSON'S MAGAZINE for December is on our table in advance. It is a splendid number, with two steel engravings, a mammoth fashion plate, a colored pattern of Berlin work, and nearly fifty wood cuts. We do not wonder at the immense circulation of "Peterson,"—said to be the largest in the World—for it really *gives more for the money than any other*. Every lady ought to subscribe for it. Its Mammoth Colored Fashion Plates are always the latest and prettiest. Its stories are the best published anywhere. In 1870, in addition to its usual quantity of short stories, five original Copy-Right Novelets will be given. About 1,000 pages of reading matter will be given in 1870, 12 Mammoth Colored Fashions and 14 superb Steel Engravings. The Magazine will be greatly improved. The terms, however, will remain at Two Dollars a year to single subscribers. To Clubs it is cheaper still, viz: four copies for $6.00, with a large engraving (24 inches by 16,) "Our Father Who art in Heaven," as a premium to the person getting up a club; or eight copies for $12.00, with both an extra copy of the Magazine and the engraving as premiums. We can speak from personal knowledge, of the beauty of this engraving. Now is the time to get up clubs for 1870. Specimens of the Magazine sent gratis. Address Charles J. Peterson, 506 Chestnut Street, Philadelphia.

BALLOU'S MONTHLY MAGAZINE.—We are in receipt of this marvellously cheap and handsome Magazine for December. Its table of contents is varied and charming, embracing the usual fine variety of serials, sketches, stories, poems and attractive engravings. The publishers announce in the prospectus for the coming year, a serial story for adults, by the popular Magazine writer, James Franklin Fitts, and a juvenile serial by the young people's favorite, Horatio Alger, Jr. The price of this periodical is a marvel to everybody—a hundred page first-class illustrated Magazine for fifteen cents, or $1.50 per year, is indeed wonderfully cheap. Elliott, Thomes & Talbot, Publishers, Boston, Mass.

BRAINARDS' MUSICAL WORLD for November is on our table, and is a most attractive number, filled with beautiful new music and interesting reading. The *Musical World* is the best and most popular musical magazine in the country. Each number contains twenty pages of new music and valuable reading. Owing to its immense circulation (over 20,000 copies) it is furnished at the low price of $1.00 a year. Elegant premiums are given for clubs, consisting of pianos, organs, sewing machines, writing desks, ladies' work-boxes, chromos, books, music, &c. We advise all our readers to send ten cents to the publishers, S. Brainard & Sons, Cleveland, O., and they will receive specimen copies, with a large amount of choice music, new premium list, &c., by return mail.

The Seneca tribe, near Buffalo, have just lost, by marriage to a young paleface, their favorite adopted white daughter, of 17, whose Indian name means "blue sky filled with music." The bride wore white lace and orange flowers. The civilized ceremony of matrimony was followed by coppery speeches and congratulations.

The skeleton of a man was found in an old mine, near Scranton, by a surveying party. It proved to be that of Martin Cain, who has been missing for months past. The skeleton was found near an air shaft, but how it came there is a mystery.

A young lady while going to her wedding in Roundout on Sunday was thrown from the carriage and broke her leg. It was proposed to take her to a physician and have her limb set, but she refused, saying she was going to be married first. And, as usual, she had her way.

Two million three hundred thousand money orders were issued by the Post-office Department during the year ending 30th June last, embracing an aggregate of 46,000,000, against 16,000,000 last year.

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address REV EDWARD A. WILSON, Williamsburg, Kings County, New York. may14y1

ERRORS OF YOUTH.—A gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the receipt and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. OGDEN, No. 42 Cedar street, New York. may14y1

A COUGH, COLD OR SORE THROAT Requirers immediate attention, as neglect often results in an incurable Lung Disease.

BROWN'S BRONCHIAL TROCHES. BROWN'S BRONCHIAL TROCHES will most invariably give instant relief. For *Bronchitis, Asthma, Catarrh, Consumptive and Throat Diseases*, they have a soothing effect.

SINGERS and PUBLIC SPEAKERS use them to clear and strengthen the voice.

Owing to the good reputation and popularity of the Troches, many worthless and cheap imitations are offered, which are good for nothing. Be sure to OBTAIN the true BROWN'S BRONCHIAL TROCHES. Sold Everywhere. nov11'69m6.

MONEY OR NOTE.—All persons indebted to John S. Sproat & Co, for brick, or F. Benedict for lumber, must close their accounts by the 10th of December or suit will be brought. JOHN S. SPROAT & CO. nov18w3. F BENEDICT.

STRAY STEER.—Came to the premises of the subscriber in Juniata township, sometime in September last, a brindled Steer, one year old past, supposed to be out of a drove. The owner is requested to come forward, prove property, pay charges and take him away. nov18w3* ANDREW DIEHL.

ESTRAY NOTICE.—Came to the premises of the undersigned, in Snake Spring tp., on or about the 16th of October last, a White Sow, with both ears cropped, about two years old. The owner is requested to come forward, prove property, pay charges, and take her away, otherwise she will be dealt with according to law. JOSEPH MORTIMORE. nov18w3.

ADMINISTRATOR'S SALE OF VALUABLE REAL ESTATE.—By virtue of an order of the Orphans' Court, the subscriber will offer at public sale, on the premises,

On SATURDAY, DECEMBER 11th, 1869, at 11 o'clock, a. m., all the Real Estate, late of George Deitrich, dec'd, in Harrison tp., Bedford county, being a tract of land lying about three quarters of a mile Northeast of Buffalo Mills, on the line of the Bedford and Bridgeport Railroad, and containing 185 acres, more or less, one hundred and twenty acres being cleared and under fence and in a good state of cultivation, twenty being meadow, and the balance well timbered with chestnut oak, black oak and white oak timber. The improvements are a two-story Log Dwelling House, with kitchen attached, a bank barn and other outbuildings, a large apple orchard, a good supply of small fruits and a good sugar camp. The property is convenient to mill, churches and school house. TERMS—One-third in cash and the balance in two equal annual payments.

Any person wishing to examine the property before the day of sale can do so by calling on William Deitrich, on the premises. nov18w4 DAVID MILLER, Adm'r.

COLBURN'S PATENT

RED JACKET AXE.

Is better than our regular shaped Axes for these reasons. First—It cuts deeper. Second—It don't stick in the Wood. Third—It does not jar the hand. Fourth—No time is wasted in taking the Axe out of the cut. Fifth—With the same labor you will do one third more work than with regular Axes. Red paint has nothing to do with the good qualities of this Axe, for all our Axes are painted red. If your hardware store does not keep our goods, we will gladly answer inquiries or fill your orders direct, or give you the name of the nearest dealer who keeps our Axes. LIPPINCOTT & BAKEWELL, Pittsburgh, Pa. Sole owners of Colburn's and Red Jacket Patents.

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,

General Ag't,

Detroit, Mich.

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sewing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

READ! READ!! READ!!!

MIDDLETON'S

WONDERFUL PAIN CURE

A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffnes, of the Joints and all similar diseases.

This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture.

For assurance of its excellent properties, read the following certificates:

BEDFORD, May 8, 1869.

I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism. For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once, I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.

ELI M. FISHER.

BEDFORD, April 14, 1869.

Mr. W. W. Middleton,

This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst., so that I was unable to raise my hand to my face. I got some of your Pain Cure and applied it twice, and was entirely relieved. I would recommend to every one who suffers with Rheumatism to give it a trial and be cured.

Yours &c., A. F. MILLER.

BEDFORD, May 17, 1869.

Mr. Middleton,

DEAR SIR:—I have used several bottles of your medicine in my family, and find it to be all you claim for it. Yours, truly,

JOHN HAFER.

BEDFORD, May 13, 1869.

This is to certify that I have used "Middleton's Pain Cure," for Rheumatism, and was very much benefited by it. JOHN HARRIS.

BEDFORD, May 18, 1869.

This is to certify that I have used Middleton's Liniment, for the Rheumatism which I had in my right shoulder so bad that I could not get my hand to my head without great pain, and after a few applications was entirely relieved.

L. F. DART.

BEDFORD, May 1, 1869.

Mr Middleton,

Dear Sir:— Mrs. Bowser was in much suffering for some four weeks with Rheumatism, and got some of your Pain Cure, and the first night I applied it it eased the pain; and after keeping on using it for two weeks, she was restored to health. I feel it to be my duty, as it is a pleasure, to write this recommendation for the benefit of others. JACOB BOWSER.

BEDFORD, May 16. 1869.

Mr W. W. Middleton:

Sir—I procured a bottle of your Liniment for Rheumatism, and it gives me great pleasure in saying that after using it for two days, my rheumatism was completely relieved. My sister was suffering, at the same time, with Inflamatory Rheumatism in her right hand and wrist—after using it for several days she was relieved. I consider it the best remedy I ever heard of.

JOHN KEEFE

BEDFORD, May 24, 1869.

This is to certify that I have used one bottle of Middleton's Liniment, for Rheumatism, and think it a good cure, and would recommend it to all persons that are afflicted with the above disease.

AUGUSTUS CARVER.

BEDFORD, May 26, 1869.

Mr. Middleton:

Sir—I procured one bottle of your medicine and used one-half of it for Rheumatism, which effected a permanent cure up to this time. I cannot hesitate in saying that it is the best remedy I ever used. A. B. CARN.

This excellent PAIN CURE is prepared only by W. W. MIDDLETON, Bedford, Pa., to whom all orders for the medicine should be addressed.

NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

BITTER CORDIAL

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

A LECTURE TO YOUNG MEN. *Just Published in a Sealed Envelope. Price six cents.* A Lecture on the Nature, Treatment and Radical Cure of Spermatorrhœa, or Seminal Weakness, Involuntary Emissions, Sexual Debility and Impediments to Marriage generally. Nervousness, Consumption, Epilepsey and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c. By ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings, or cordicals, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself, cheaply, privately and radically. THIS LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.

Sent under seal, to any address, in a plain envelope, on the receipt of six cents, or two postage stamps. Also Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers.

AYER'S HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Billous Colic and Billous Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adcertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.
